## WHITEFACE CLUB & RESORT GOLF COURSE

The classic 1898 golf course is set on the edge of beautiful Lake Placid, surrounded by mountains, deep within the Adirondack wilderness. It is well manicured, challenging, and can be walked. The original nine holes were built in 1898, with the second nine holes added in the 1930s by architect John Van Kleek. Walter Hagen was the course consultant and at the time was the best golfer the world had ever seen, winning

two US Opens, four British Opens, and five PGA championships. Whiteface Club & Resort Golf Course has hosted numerous championships, and is judged to be a great test of the game.

Perry Babcock, PGA Professional speaks of Whiteface Club & Resort Golf Course as a one of the most challenging, yet fair tests of golf in the northeast. This mountain course layout rewards good shots, and punishes errand shots with the narrow tree lined architecture on many holes. As Perry says, "Adirondack golf at its finest." Whiteface Club & Resort was named #4 by Golfweek in public access courses in NYS.

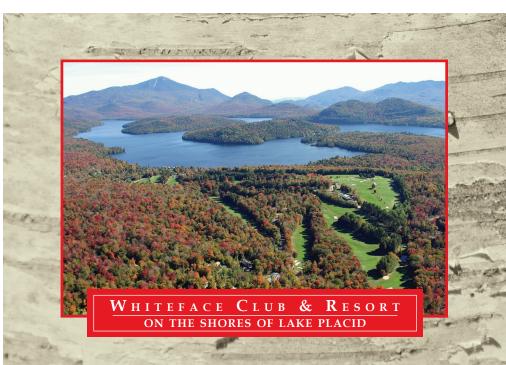

> Whiteface Club & Resort is an Adirondack masterpiece that will hold a place in the memory of all who play it. The Café on the Green serves lunch daily, in season. Overnight accommoda-

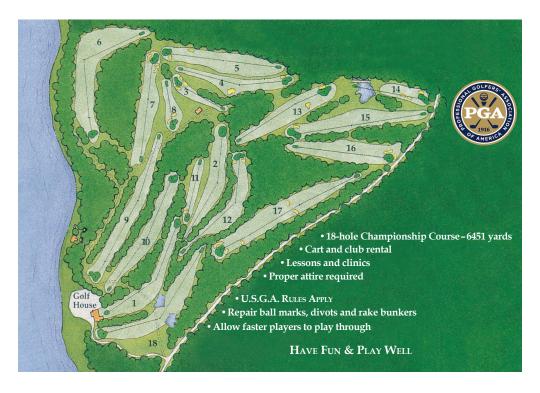

tions are available on site.
